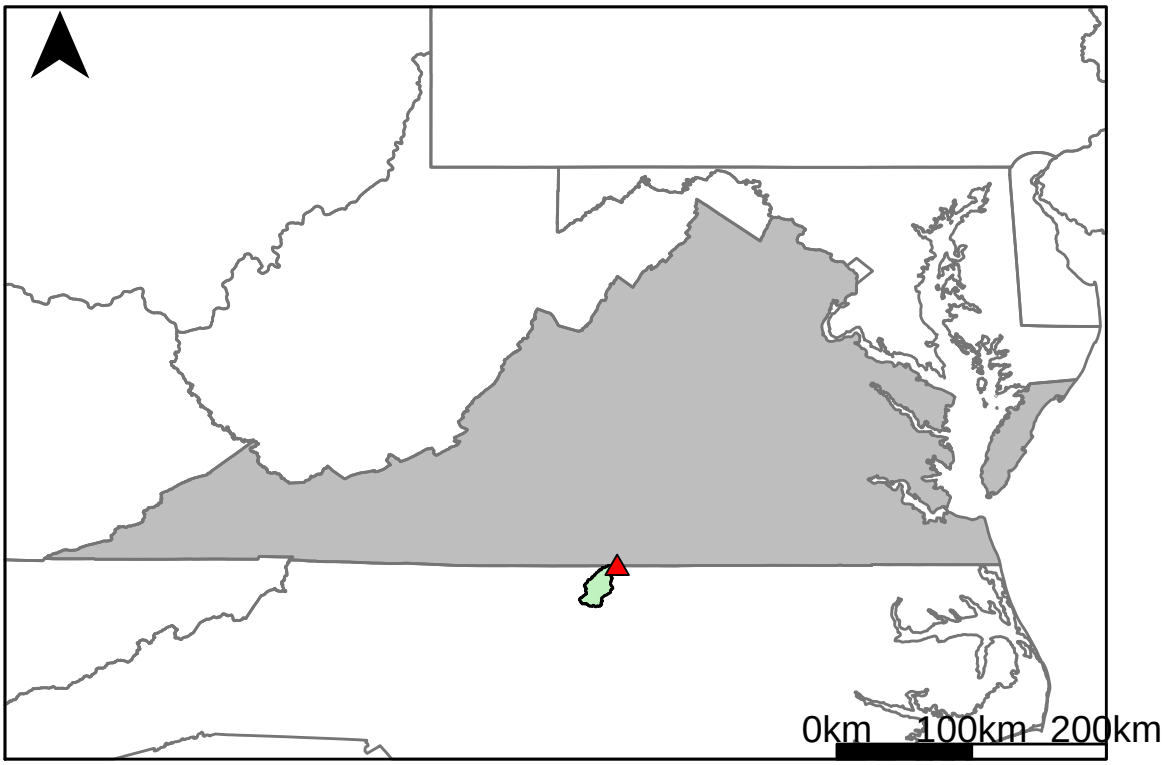
02077303 vs. OD2_8920_8830



This river segment follows part of the flow of the Hyco River, a tributary of the Dan River. The gage is located in Person County, NC (Lat 3631'21", Long 7858'51") approximately 24 miles southeast of Danville, VA. Drainage area is 202 sq. miles. This gage started taking data in 1973 and is still taking data. It is regulated by the Afterbay Dam which is 200ft upstream of the gage. The cities of Roxboro and Oxford use the Dam in cases of emergency to supply their citizens with water. The average daily discharge error between the model and gage data for the 20 year timespan was -33.8%, with 68.3% of its rolling three month time spans above 20% error.
